

Document Holders

Description	Part No.
75mm plastic document holder with st.st. cap retaining wire, plastic brackets	360/1101
75mm clear plastic document holder with st.st. cap retaining wire, plastic brackets	360/1101T
75mm plastic document holder with st.st. cap retaining wire and brackets	360/1101ABSS
75mm clear plastic document holder with st.st. cap retaining wire and brackets	360/1101TBSS
110mm plastic document holder with st.st. cap retaining wire, plastic brackets	460/1101
110mm clear plastic document holder, st.st. cap retaining wire, plastic brackets	460/1101T
110mm plastic document holder with st.st. cap retaining wire and brackets	460/1101ABSS
110mm clear plastic document holder with st.st. cap retaining wire and brackets	460/1101TBSS

Associated Parts

Description	Part No.
75mm PVC cap with stainless steel cable	360/1010
110mm PVC cap with stainless steel cable	460/1010
75mm fixing bracket – plastic	360/1007
75mm fixing bracket – stainless steel	360/1007SS
110mm fixing bracket – plastic	460/1007
110mm fixing bracket – stainless steel	460/1007SS

Clamped Gauze Rings

Clamped gauze rings are available for our 1", 1½", 2½", 65mm and 80mm relief valves. A clamped gauze fits around the valve body ports and offers flame protection to valves with a vacuum setting of 0.21 Bar (6"Hg) and above. For valves with a vacuum setting of less than 0.21 Bar, a clamped gauze is often fitted to provide dust protection.

Description	Part No.
Clamped gauze – 1" Minnow valves	179/0300
Clamped gauze – 1½" Twinact valves	200/5000
Clamped gauze – 2½" Twinact valves	130/5000
Clamped gauze – 2½"/65mm Super Maxi valves *	176/2900
Clamped gauze – 80mm Hyper Maxi 043/series & 049/series only *	176/2920

Fitting a clamped gauze to a Minnow or a Twinact relief valve reduces the valve flow rate.

Fitting clamped gauze 176/2900 to a 65mm Super Maxi relief valve reduces the valve flow rate by 1%.

Fitting clamped gauze 176/2920 to an 043/series or 049/series 80mm Hyper Maxi relief valve reduces the valve flow rate by 5.4%.

* Please note that the 176/2900 and 176/2920 are NOT interchangeable. For further advice, please contact our Sales Department.
